Embedded liberalism is a term for the global economic system and the associated international political orientation as they existed from the end of World War II to the 1970s. The system was set up to support a combination of free trade with the freedom for states to enhance their provision of welfare and to regulate their economies to reduce unemployment.

Social liberalism (also known as modern liberalism in the United States and left liberalism in Germany) is a political ideology and a variety of liberalism that endorses a regulated free market economy and the expansion of civil and political rights. A social liberal government is expected to address economic and social issues such as poverty, health care and education in a liberal state.

John Locke (b. 1632, d. 1704) was a British philosopher, Oxford academic and medical researcher. Locke's monumental An Essay Concerning Human Understanding (1689) is one of the first great defenses of modern empiricism and concerns itself with determining the limits of human understanding in respect to a wide spectrum of topics. It thus tells us in some detail what one can legitimately claim ...
