The device that is going to be developed aims at recovering as much kinetic energy as possible from the natural movements of a sailing yacht on the sea, therefore taking the view of a boat as a ...

(PDF) Kinetic energy recovery system for sailing yachts

It is a lot of boat for one person but it is manageable if you're smart about it. I was finally able to sail, under single reef, across the Strait of Juan de Fuca on the return home. A close reach at about 8-9 knots in 2-3 seas and 25K winds. Lumpy but nice to be sailing for a change. Of course it didn't last long.

Kinetics goes cruising – S/V Kinetics
