### **Understanding customer need during new product development**

Business has gotten more complex because of the many advances in computation over the last few decades — rendering lightning speeds in transactions and astronomical scales of customer engagement.

### **Design – Technology, Business, Design (TBD) are converging**

Co-creation is a management initiative, or form of economic strategy, that brings different parties together (for instance, a company and a group of customers), in order to jointly produce a mutually valued outcome. Co-creation brings a blend of ideas from direct customers or viewers (who are not the direct users of the product) which in turn creates new ideas to the organization.
