How to Start Day Trading 2019 for Beginners - Tutorials

Day trading is speculation in securities, specifically buying and selling financial instruments within the same trading day, such that all positions are closed before the market closes for the trading day. Traders who trade in this capacity with the motive of profit are therefore speculators. The methods of quick trading contrast with the long-term trades underlying buy and hold and value ...

My book, Encyclopedia of Chart Patterns is to human anatomy as Chart Patterns: After the Buy is to human behavior. Chart Patterns: After the Buy shows how a stock acts after a chart pattern appears, so we can use that knowledge before buying to boost the odds of trading success. It covers chart patterns, but from a different perspective than all of my other books.
