Tests are called "high-stakes" when they used to make major decisions about a student, such as high school graduation or grade promotion. To be high stakes, a test has to be very important in the decision process or be able to override other information (for example, a student does not graduate if s/he does not pass the test regardless of how well s/he did in school).

Ratio decidendi (Latin plural rationes decidendi) is a Latin phrase meaning "the reason" or "the rationale for the decision". The ratio decidendi is "the point in a case that determines the judgement" or "the principle that the case establishes".. In other words, ratio decidendi is a legal rule derived from, and consistent with, those parts of legal reasoning within a judgment on which the ...

The tyranny of small decisions is a phenomenon explored in an essay of the same name, published in 1966 by the American economist Alfred E. Kahn. The article describes a situation in which a number of decisions, individually small in size and time perspective, cumulatively result in an outcome which is not optimal nor desired.
