The aim is to determine the relevanc e and fulfillment of objectives , development efficiency , effectiveness , impact and sustainability . (OECD DAC Glossary).

### **Guidelines for Project and Programme Evaluations**

As the nature AD project is a process development approach, monitoring and evaluation of AD projects would require the

understanding of the process being going on. The operational framework based on some of the above strategies may be hypothetically developed for AD arguments as shown in Figure 1.

## **A Manual on Monitoring and Evaluation for Alternative**

At the project level, deliverables 1 to 6 can be used in the 'justifying a project phase' of the UNDP project development cycle. All the deliverables would be used for the 'defining a programme' and 'defining a project' steps as these require results, roles, accountabilities and risks to be defined.

## **HANDBOOK ON PLANNING, MONITORING AND EVALUATING**

Program Development and Evaluation Planning a Program Evaluation G3658-1. Acknowledgements For their timely and thoughtful review of this publication, the authors wish to thank Phil Holman, Stephen Kluskens, Greg Lamb, ... program evaluation. It is organized into four major sections:

### **Planning a Program Evaluation - The Learning Store**

development process does two things: (1) it helps articulate the key assumptions and logical (or illogical) connections in a theory of change; and (2) it establishes a starting point for evaluation questions and a proposal for answering them in a practical, meaningful sequence, with actions and decisions in mind. 4.
