The petroleum industry in Western Australia is the largest contributor to Australia's production of most petroleum products.. Based largely on development of the reserves of the North West Shelf and other onshore hydrocarbon basins, the industry extracts crude oil, condensate and natural gas from petroleum reservoirs deep beneath the Earth's surface. A large plant located at Withnell Bay near ...

Petroleum (/ p ? ? t r o ? l i ? m /) is a naturally occurring, yellowish-black liquid found in geological formations beneath the Earth's surface. It is commonly refined into various types of fuels.Components of petroleum are separated using a technique called fractional distillation, i.e. separation of a liquid mixture into fractions differing in boiling point by means of distillation ...

Petroleum - Wikipedia

1.. IntroductionA wide variety of petroleum-based synthetic polymers are produced worldwide to the extent of approximately 140 million tons per year and remarkable amounts of these polymers are introduced in the ecosystem as industrial waste products (Shah et al., 2008).Plastics are resistant against microbial attack, since during their short time of presence in nature, could not design new ...

An overview of the recent developments in polylactide (PLA)

The OmniGlobe is our Planetarium's satellite, like Earth's moon. I pass by it on my way to and from work and often witness an undergraduate exploring the planets whilst waiting for class or a 14 year-old campus visitor confidently demonstrating her knowledge of ocean currents to her 11 year old brother.

Aim. To promote quality research and real-world impact in an atmosphere of true international co-operation between scientists, engineers and industry by bringing together the world class renowned personalities to discuss the latest developments and innovations at one common platform.

3rd Global Conference and Expo on Applied Science

Introduced more than 100 years ago, electric cars are seeing a rise in popularity today for many of the same reasons they were first popular. Whether it's a hybrid, plug-in hybrid or all-electric, the demand for electric drive vehicles will continue to climb as prices drop and consumers look for ways to save money at the pump.
