digital storytelling in the pdf

Digital storytelling is a short form of digital media production that allows everyday people to share aspects of their story. The media used may include the digital equivalent of film techniques (full-motion video with sound), stills, audio only, or any of the other forms of non-physical media (material that exists only as electronic files as opposed to actual paintings or photographs on paper ...

The need for information management excellence. The complexity of (enterprise) information management often turns out to be a problem. A big problem for executives who don't always see the essence as information management tends to be dealt with outside of the 'business' part of the organization and in silos such as Enterprise Content Management.
