IBN SINA (AVICENNA). Ibn Sina (Avicenna) (980-1037) is one of the foremost philosophers of the golden age of Islamic tradition that also includes al-Farabi and Ibn Rushd.He is also known as al-Sheikh al-Rais (Leader among the wise men) a title that was given to him by his students. His philosophical works were one of the main targets of al-Ghazali's attack on philosophical influences in Islam.

Ibn Sina (Avicenna): Website - Muslim philosophy

Philosophy (from Greek ?????????, philosophia, literally "love of wisdom") is the study of general and fundamental problems concerning matters such as existence, knowledge, values, reason, mind, and language. The term was probably coined by Pythagoras (c. 570 – 495 BCE). Philosophical methods include questioning, critical discussion, rational argument, and systematic presentation.

Tragedy of Freedom in a Commons. The rebuttal to the invisible hand in population control is to be found in a scenario first sketched in a little-known pamphlet (6) in 1833 by a mathematical amateur named William Forster Lloyd (1794-1852).

The Tragedy of the Commons | Science

Kohlberg's theory of moral development has been criticized because it predicts greater consistency in moral reasoning than has been observed. This prediction follows from Kohlberg's conception of stages, which also entails a view of the process of reasoning as the application of a moral principle to a dilemma to derive a solution.
