A projector or image projector is an optical device that projects an image (or moving images) onto a surface, commonly a projection screen. Most projectors create an image by shining a light through a small transparent lens, but some newer types of projectors can project the image directly, by using lasers.

Magic or sorcery is an attempt to understand, experience and influence the world using rituals, symbols, actions, gestures and language. Modern theories of magic may see it as the result of a universal sympathy where some act can produce a result somewhere else, or as a collaboration with spirits who cause the effect.
