In today's hyper-competitive and customer-centric world, it is those that know the most about their customers that achieve the greatest success.

Tomorrow's experience, today. | KPMG Global

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.

Introduction The Classroom Mini-Economy: a form of economics instruction in which students participate in a classroom economy in order to simulate real world economic activity. Today's rapidly changing and highly interdependent society requires, perhaps as never before,

The Classroom Mini-Economy

The expansion of our wealth is only possible so long as the oil supply continues to expand, says oil expert Dr. Colin Campbell. The financial and investment community is beginning to accept the reality of Peak Oil, which ends the First Half of the Age of Oil, during which banks created capital by lending more than they had on deposit, being confident that tomorrow's expansion, fueled by cheap ...

Historical context Pre-Keynesian macroeconomics. Macroeconomics is the study of the factors applying to an economy as a whole, such as the overall price level, the interest rate, and the level of employment (or equivalently, of income/output measured in real terms). Macroeconomics accounts to the economics of tomorrow and the day after, it is about what has been done to have a huge multiplier ...
