Rise of the Information System. The invention of writing allowed information to be stored for later use, and even copied verbatim. The printing press made the copying process much easier, giving many more people access to the information.

Nanotechnology: Three Systems of Action

Dashboards often provide at-a-glance views of key performance indicators (KPIs) relevant to a particular objective or business process. In the other, "dashboard" has another name for "progress report" or "report." The "dashboard" is often displayed on a web page which is linked to a database that allows the report to be constantly updated.
