electronic commerce and security pdf

E-commerce is the activity of buying or selling of products on online services or over the Internet. Electronic commerce draws on technologies such as mobile commerce, electronic funds transfer, supply chain management, Internet marketing, online transaction processing, electronic data interchange (EDI), inventory management systems, and automated data collection systems.

The Uniform Electronic Transactions Act (UETA) is one of the several United States Uniform Acts proposed by the National Conference of Commissioners on Uniform State Laws (NCCUSL). Forty-seven states, the District of Columbia, and the U.S. Virgin Islands have adopted the UETA. Its purpose is to harmonize state laws concerning retention of paper records (especially checks) and the validity of ...

The Electronic Signatures and Records Act (ESRA) provides that "signatures" made via electronic means will be legally binding just as hand-written signatures now are. The law also enhances and clarifies the authority of government to create and retain records in computer produced electronic form. There is now no doubt that electronic records have the same legal force as those produced in other ...
