Alliance Imager is a document management system which uses document imaging and scanning software to transform paper documents and ...

Imaging for Windows 4.0 document imaging & scanning software

A document management system (DMS) is a system (based on computer programs in the case of the management of digital documents) used to track, manage and store documents and reduce paper. Most are capable of keeping a record of the various versions created and modified by different users (history tracking). The term has some overlap with the concepts of content management systems.

Document management system - Wikipedia

Powerful capabilities to edit, sign and secure PDF documents. Stop wishing for advanced features that are also easy to use. File Formats (Raster, Vector & Document) | LEADTOOLS

The PDF format is the native file format of the Adobe Acrobat family of products. The goal of this format and these products is to enable users to exchange and view electronic documents easily and reliably, independently of the environment in which they were created.

PDF Accessibility Overview - adobe.com

The Portable Document Format (PDF) is a file format developed by Adobe in the 1990s to present documents, including text formatting and images, in a manner independent of application software, hardware, and operating systems. Based on the PostScript language, each PDF file encapsulates a complete description of a fixed-layout flat document, including the text, fonts, vector graphics, raster ...
